The reinforcement beam serves to optimise the stability of a closed support.

The powerful stainless steel reinforcement beam ensures maximum stability of a closed support. The Hupfer reinforcement beam offers a robust and reliable solution even under heavier loads. The sturdy construction made of high-quality stainless steel guarantees a long lifespan and is easy to assemble. The reinforcement beam increases the load-bearing capacity of the support and ensures optimal weight distribution. The improved efficiency of the bearing surface creates additional space for even more goods.
