Technical data

Weight:	7 kg
Width:	2500 mm
Depth:	159 mm
Height:	19 mm

Similar to illustration, technical modifications reserved. Without decoration.

Stainless steel floor rail with a central guide groove for receiving the running carriages of a sliding shelf.

High-quality stainless steel rail in hygienic design according to DIN 18868-2, serving as the basis for a sliding shelf to optimise space utilisation in various storage areas from laundry storage to operating room and sterile goods storage. Floor rail in deformation-stable design with special profiling for high load capacities, featuring a central guiding groove for the wheels of the running trolleys. Rails available in standard segments of 1000, 1500, and 2500 mm in length, as well as in any required intermediate lengths for floor installation, segments can be combined with stainless steel connecting elements to achieve the desired total length.
