<b>Supply voltage:</b>	220 V
<b>Nominal current:</b>	5,5 A
<b>Protection class:</b>	Class I
<b>Frequency:</b>	50 Hz
<b>Weight:</b>	20 kg
<b>Width:</b>	1454 mm
<b>Depth:</b>	664 mm
<b>Height:</b>	43 mm

The warming plate with a sintered ceramic surface is designed for the efficient presentation and serving of food. The warming plate helps maintain temperature and ensures the freshness of the dishes during service.

The Hupfer warming plate with a sintered ceramic surface offers an excellent solution for the efficient presentation and serving of food in the catering industry. The integrated design allows for easy adaptation to existing systems and provides an appealing appearance. The robust sintered ceramic surface guarantees high resistance and durability, while the even temperature distribution ensures the freshness and quality of the food throughout the entire service. This warming plate is ideal for self-service, ensuring efficient use and increased comfort for guests. Choose the Hupfer warming plate to present your dishes stylishly and warm – for an unforgettable culinary experience!

- With installation frame ensures easy integration into existing systems and an appealing appearance.
- Sintered ceramic surface offers high resistance and durability.
- Even temperature distribution ensures the quality and freshness of dishes during service.
- Suitable for self-service enables efficient use and increased comfort for guests.
