The swivel castor is used for attachment to mobile devices. The swivel castor enables the mobility, steerability, and controllability of the devices.

The easy-running swivel castor made of high-quality plastic with stainless steel metal parts is designed for attachment to mobile devices. The Hupfer swivel castor ensures the mobility of mobile equipment. The effortless turning, steering, and positioning of the devices using the swivel castors increase the efficiency and safety of task execution in tight or crowded work areas. The robust swivel castor is equipped with a swivel bearing with a double ball race and allows for effortless handling of the devices, even with heavy loads. The wheel body is made of high-quality plastic and the tread surface from thermoplastic rubber. The precision ball bearing and thread guard enable smooth and almost noiseless mobility. The swivel castor is securely mounted to the device using a rear hole, ensuring stability.

- Swivel bearings with double ball ring enable effortless movement and precise control - Precision bearings and thread protection ensure smooth and almost silent operation - Total brakes guarantee safe driving and securing
