Similar to illustration, technical modifications reserved. Without decoration.

The floor pressure distribution plate ensures a stable and secure setup of your shelves and effectively protects the floor from damage.

Free-standing shelving unit, anodised, 600 kg field load. Modular shelving system made of natural anodised aluminium in a hygienic design as per DIN 18868-2, suitable for continuous use at -40 °C to + 60 °C, for installation in a straight line or as a corner unit with corner hooks, extendable to any length. Upright made of special 25 × 25 mm rectangular tubes, connected and stabilised by firmly press-fitted 40 × 7 mm transverse bars. Plastic top covering caps and height-adjustable screw feet to compensate up to 25 mm for uneven floors as a hygienic closure of the upright. Integrated support lugs at 150 mm spacing for easily hooking on shelf supports. Shelves in standard lengths 600 mm, 800 mm, 900 mm, 1000 mm, 1200 mm, 1400 mm, 1500 mm, in hygienic and easy-to-clean design.

- even weight distribution of your shelves
- protects the floor from damage
- increases the stability of heavy shelves
