Technical data

Weight:	2 kg
Width:	640 mm
Depth:	150 mm
Height:	77 mm

Similar to illustration, technical modifications reserved. Without decoration.

Sieve basket for endoscope, with removable lid made of high-quality stainless steel wire and a basket for small supplies, for cleaning, sterilisation, transport, storage and provision of an endoscope with optical fibre cable.

Sieve basket made of closed wire loops with top frame and middle frame made of stainless steel wire, lid made of welded mesh with wire frame and safe twist lock. A robust ocular holder, a separately closable rinsing basket for small parts and guides for optical fibre cable in the basket ensure, along with appropriate locking pins on the lid, perfect fixing and optimum protection of the system also during cleaning, disinfection and sterilisation processes.
