Technical data

Similar to illustration, technical modifications reserved. Without decoration.

The 4-sided gallery is designed for the safe transport, storage, and interim storage of goods on the roof of your sterile goods or container transport trolley.

The 4-sided gallery provides a surrounding protection for the roof of your sterile goods or container transport trolley. This allows for an additional load of up to 25 kg to be stored and transported on the roof. The gallery consists of gallery supports made of solid plastic material and wires made of high-quality, recyclable stainless steel. The materials used and the robust construction ensure a long lifespan for your gallery.

- additional space for up to 25 kg of cargo
- use of high-quality materials and solid plastic for long durability and hygienic cleaning

Time and date of the request:
29.04.2025, 09:10:45
