Hupfer offers a solution for the efficient organisation and storage of materials. The products allow for easy handling when transporting and sorting items in various containers.

Discover the innovative insertion frame set with sliding rails, approximately $\frac{3}{4}$ extension from Hupfer Metallwerke GmbH & Co. KG. This high-quality set made of polished stainless steel not only offers an elegant appearance but also outstanding functionality. The robust plastic rails enable effortless handling of containers with raised edges. This ensures that the organisation of sterile goods remains efficient and safe at all times. Benefit from the optimal use of space and the easy accessibility that the insertion frame set provides. Ideal for the medical sector, where hygiene and efficiency are of utmost priority. Rely on quality and reliability with Hupfer – the solution for your logistics needs!

- **High-quality plastic rails** - Durability and ease of handling.
- **Suitable for containers with raised edges** - Optimal adaptation for various applications.
- **Polished stainless steel surface** - High hygiene and appealing design.
- **Approx. $\frac{3}{4}$ extension** - Efficient accessibility and easy organisation.
- **Versatile applications** - Ideal for the catering industry and medical logistics.
