

Container transport trolley for 10 SPRI

P/N: 7505575 | CTW/O 10SPRI 1036/750/1400 SF

Technical data

Modular dimension:	110 mm
Weight:	56 kg
Width:	1036 mm
Depth:	750 mm
Height:	1400 mm

Similar to illustration, technical modifications reserved. Without decoration.

The open container transport wagon is used for transporting and storing 10 sterile goods baskets.

The open container transport trolley made of stainless steel is designed for the comfortable transport and storage of sterile goods baskets. The Hupfer container transport trolley ensures easy handling and efficiency of transport processes in any medical work environment. The open frame construction made of stainless steel square tubing with a permanently welded top plate provides quick accessibility and a clear overview. The smooth top plate with railing serves as a practical work surface and allows for user-friendly organisation. Permanently welded support pins enable the easy insertion of compatible, height-adjustable support rails for sliding in the sterile goods baskets. The lateral push-through safeguards ensure maximum safety for the sterile goods baskets even during transport. The high-quality design guarantees optimal hygiene for demanding environments. Four swivel castors with two total locks allow for smooth movement and precise manoeuvring.

- Open construction ensures quick accessibility and user-friendly organisation. - Fixed welded support bolts allow for adjustable heights of the support rails and individual spacing adjustments. - High-quality design guarantees easy cleaning and optimal hygiene. - Swivel castors ensure smooth movement and precise manoeuvring. - Total locks guarantee safe driving and securing.
