Technical data

Weight:	68 kg
Width:	500 mm
Depth:	650 mm
Height:	2000 mm

Similar to illustration, technical modifications reserved. Without decoration.

The tall cabinet with hinged door and height-adjustable base shelf is used to safely store sterile goods and consumables.

MediFurn tall cabinets provide space for safely storing items and are also tidy, versatile and easy to use.

The hygienic, high-quality stainless steel design ensures excellent durability and easy cleaning in demanding environments.

The height-adjustable base shelves can be precisely tailored to a wide array of storage items. The hinged doors provide quick and secure access to material at all times and effective protection against dust and light.

The tall cabinets are designed to hold solid or wire shelves.

- High-quality workmanship on high-quality stainless steel allows for perfect hygiene and easy cleaning
- The tall cabinet provides space for safely storing sterile goods and consumables
