

Tall cabinet with module support wall Scan module

Technical data

Weight:	64.567 kg
Width:	485 mm
Depth:	650 mm
Height:	2000 mm

Similar to illustration, technical modifications reserved. Without decoration.

The tall cabinet with module support is used for safely storing sterile goods and consumables in modular or sterile goods baskets.

MediFurn tall cabinets provide space for safely storing items and are also tidy, versatile and easy to use.

The hygienic, high-quality stainless steel design ensures excellent durability and easy cleaning in demanding environments.

The hinged doors provide quick and secure access to material at all times and effective protection against dust and light. Internal polymer panels in ISO standard format for holding modular and sterile goods baskets make handling the stored goods easier.

- High-quality workmanship on high-quality stainless steel allows for perfect hygiene and easy cleaning
- The tall cabinet provides space for safely storing sterile goods and consumables
- Hinged doors for quick access and effective protection against dust
