Technical data

Modular dimension:	75 mm
Max. section load	600
Weight:	20 kg
Width:	873 mm
Depth:	612 mm
Height:	1960 mm

Similar to illustration, technical modifications reserved. Without decoration.

The Da Vinci extension unit is added to a Da Vinci basic shelving unit to increase the storage area and utilise more space. The shelving is designed for storing sterile goods baskets with Da Vinci endoscopes, their instrument baskets and soft packaging.

The included drawer frame sets offer a secure storage area with ergonomic pull-out.

The Hupfer Da Vinci stainless steel extension unit offers a clearly arranged and easily accessible storage solution for organised logistics of sterile goods and surgery supplies.

The modular design allows a customised layout for a wide range of spatial and temperature conditions, ensuring the most efficient use of space. The special concept for provision of robotic instruments creates maximum clarity.

The ergonomic pull-out allows quick access and easy removal of stored sterile goods baskets. The shelving is easy to install and can be supplemented at any time to easily cater for changes in everyday logistics.

The materials are sustainable, 100% recyclable and so valuable that Hupfer offers a
