

# Stationary shelving set norm 12 with solid shelf

**HUPFER**  
we make work flow

P/N: N12GS46006001600 | RS-N12-GS/4600×600×1600

## Technical data

<b>Max. bay load</b>	100
<b>Max. section load</b>	600
<b>Carbon footprint TM65</b>	1637 kgCO <sub>2</sub> e
<b>Weight:</b>	84.452 kg
<b>Width:</b>	4525 mm
<b>Depth:</b>	600 mm
<b>Height:</b>	1600 mm

*Similar to illustration, technical modifications reserved. Without decoration.*

The stationary shelving is designed for storage and to optimise space utilisation. The shelving has a high load capacity and is suitable for use at an ambient temperature of -30°C. The solid shelf, made from polymer, of the shelving norm 12 provides a lightweight, stable and hygienic storage surface. The set contains 4 shelves per shelf section.

The Hupfer Norm 12 stationary shelving is a lightweight structure made from a combination of aluminium and polymer. The shelving offers a very easy to clean, clearly arranged and easily accessible storage solution for organised logistics.

The modular design allows for a needs-specific layout for a wide variety of spatial and temperature conditions, thereby ensuring the most efficient use of space. Uneven floors and temperatures from -30°C are no problem, even on a permanent basis. The shelving is easy to assemble and can be extended at any time in a straight line or even around corners and is easily adapted to changes in everyday logistics.

The easy-to-install, solid polymer shelf provides a lightweight, stable and very easy to clean shelf surface. It is even dishwasher safe. This shelf holds heavy loads despite its light weight.

The materials used are sustainable, 100% recyclable, and so valuable that Hupfer guarantees that it will buy back all of your shelving at the end of its useful life.

- solid polymer shelf with low weight ensures safe, hygienic storage and clear

access at all times

- high-quality polymer workmanship allows for easy cleaning and perfect hygiene. It is even dishwasher safe.
- modular system allows for any design and extension and ensures the most efficient use of space
- valuable materials ensure sustainability and value retention
- robust construction guarantees high stability and high load-bearing capacity
- modular system ensures easy handling from assembly to cleaning with little effort
