The castor wheel is used for attachment to mobile devices. The castor wheel enables mobility and precise steering control of the devices.

The smooth-running swivel castor made of high-quality plastic with stainless steel metal parts is designed for attachment to mobile equipment. The Hupfer swivel castor ensures the mobility of mobile devices. The robust swivel castor allows for effortless and precise handling of the equipment, even with heavy loads. The wheel body is made of high-quality plastic and the tread surface is made of thermoplastic rubber. The ball bearing and thread guard enable smooth and almost silent movement. The swivel castor is securely mounted to the device using a mounting plate, ensuring stability.
