гарантируется.*

Closed basket dispenser with height-adjustable platform for storing 25.6 × 20.9" (650 × 530 mm) baskets with small or difficult-to-stack crockery items.

Dispenser in self-supporting and hygienic design, made of high-quality stainless steel. Closed, smooth outer housing with open stacking compartment. Removable basket made of plastic-coated stainless steel as stacking platform with ball bearing platform guide, can be included in stacking capacity. Consistent output height thanks to manually adjustable stainless steel tension spring system. Easy cleaning of stacking compartment from above and via a cleaning opening in the base plate. Four massive polymer corner bumpers, of which two at the upper corners of the structure that serve as bumpers and protect the equipment on all sides as well as building-side walls from being damaged, with integrated, ergonomically-shaped push bars. Dispenser runs on 4 swivel casters of which 2 with total locks, Ø 4.9" (125 mm), fastened by means of screw-on plates and several screws.

The Hupfer basket dispenser KO 65-53 has two push handles installed on the corners of the unit to ensure optimal handling properties. The ergonomically shaped push handles also guarantee effective protection against injuries to the hands. The installation height of 900 mm is the standard working height in food distribution. The guide basket, which comes as series standard, is the same as the non-rusting, stainless steel crockery baskets available as an optional accessory, and increases the stacking capacity by approx. 20 %.
