Технические характеристики

Полезная нагрузка:	140 kg
Мощность:	1840 W
Входное напряжение:	AC 220-230 V
Номинальный ток:	8,0 A
Класс защиты:	Class I
Частота:	50/60 Hz
Масса:	97 кг
Ширина:	998 мм
Глубина:	633 мм
Высота:	1038 мм

Power dispenser for storing wax-filled, stainless steel bain-marie bases (pellets) for \varnothing 260 mm (10. 2") plates in two stacking compartments heated with circulating air.

Dispenser in self-supporting and hygienic design, made of high-quality stainless steel. Closed, smooth outer housing with thermal insulation through high-quality special insulation. Complete inner panelling with high-quality baffle plates for direct control of the air flow to the pellets, ensuring optimised energy usage. Open stacking compartments and stacking platforms in electropolished rod design. Four stainless steel crockery guides each per stacking compartment. Consistent output heights thanks to manually adjustable stainless steel tension spring systems. Easy cleaning of stacking compartments from above. The completely double-walled structure, the insulated base and the sealed stainless steel hinge covers reduce heating time and temperature losses. Heated by power module with integrated motor, fan impeller and stainless steel tubular heating element for automatic convection air operation, operated using On/Off switch with integrated indicator light in switch plate, with temperature limiter as per VDE. Current supply via dimensionally stable and extractable spiral cable with angle plug. Plug park in switch plate. Four massive polymer corner bumpers at the bottom and two at the upper corners of the structure that serve as bumpers and very effectively protect the equipment on all sides as well as building-side walls from being damaged, with integrated ergonomically-shaped push bars. Dispenser runs on 4 swivel casters of which 2 with total locks, \varnothing 125 mm (4.9"), fastened by means of screw-on plates and several screws.

HUPFER
we make work flow

The Hupfer Power dispenser PSUH 2/26 ensures very high energy efficiency in comparison to other products by combining a very low power rating with the temperatures it can reach.
