The swivel castor is used for attachment to mobile devices. The swivel castor enables the mobility, steerability, and control of the devices.

The easy-running swivel castor made of high-quality plastic with metal parts made of galvanised steel is corrosion-resistant and is designed for attachment to mobile devices. The Hupfer swivel castor ensures the mobility of mobile devices. The effortless turning, steering, and positioning of the devices using the swivel castors increase the efficiency and safety of performing tasks in tight or crowded work areas. The robust swivel castor is equipped with a swivel bearing with a double ball race and allows for effortless handling of the devices, even with heavy loads. The plain bearing enables almost silent and smooth mobility. The brakes ensure the securing and stabilisation of the device's position. The swivel castor is securely mounted to the device using a back hole and provides stability.

- Durable plastic housing ensures rust resistance and longevity
- Swivel bearing with double ball ring allows for effortless movement and precise control
- Sliding bearing provides near-silent and smooth operation
