The swivel castor is used for attaching to mobile devices. The swivel castor enables the mobility, steerability, and controllability of the devices.

The smooth-running swivel castor made of high-quality plastic with zinc-coated steel parts is rust-free and is designed for attachment to mobile devices. The Hupfer swivel castor ensures the mobility of mobile devices. The effortless turning, steering, and positioning of the devices using the swivel castors increase the efficiency and safety of carrying out tasks in tight or crowded work areas. The robust swivel castor is equipped with a swivel bearing with a double ball race and allows for easy handling of the devices, even with heavy loads. The sliding bearing enables almost silent and smooth mobility. The swivel castor is securely mounted to the device using a mounting plate, ensuring stability.

- Durable plastic housing ensures longevity
- Swivel bearing with double ball race allows for effortless movement and precise control
- Sliding bearing ensures near-silent and smooth operation
