6161/5177/2085 - CS3-1

### Технические характеристики

<b>Масса:</b>	922 кг
<b>Ширина:</b>	6161 мм
<b>Глубина:</b>	5177 мм
<b>Высота:</b>	2085 мм

*Показан пример без декоративных элементов,  
точность технического описания не  
гарантируется.*

The sliding shelf is used for storage with maximum space utilisation. The shelf is movable on ceiling tracks. Depending on the model, the shelf is suitable for continuous use at ambient temperatures from -40°C to +60°C. The supports serve as the storage surface.

The Hupfer sliding shelf offers a clear and easily accessible storage solution for order in your logistics with maximum space utilisation. The modular and movable design allows for a needs-specific configuration for different conditions and ensures the highest space efficiency. Thanks to the mobility of the shelf via a guide using ceiling rails and rollers on the shelf uprights, you can create up to 100% more shelf space than with a static shelf. The ceiling rails are screwed to the ceiling. The ceiling guide ensures adequate ground clearance when cleaning the premises. You can freely choose the individual components of the shelf according to your needs, in line with our Hupfer standard shelves from the standard series. The effortlessly hung supports provide, depending on the series, a secure, well-ventilated, and easy-to-clean surface that can bear high loads. The materials used are sustainable, 100% recyclable, and so valuable that Hupfer guarantees today to buy back your entire shelf at the end of its service life.
