

Norm 12 Shelving Unit Set with Closed Shelf

Технические характеристики изделия N12GS8006001800 | RS-N12-GS/800×600×1800

Технические характеристики

Показан пример без декоративных элементов, точность технического описания не гарантируется.

Размер ячейки:	150 mm
Max. bay load	150
Max. section load	600
Carbon footprint (TM65 Basic Report)	462 kgCO ₂ e
Масса:	18 кг
Ширина:	800 мм
Глубина:	600 мм
Высота:	1800 мм

The standing shelf is used for storage and optimising space utilisation. The shelf can support high loads and is suitable for use at an ambient temperature of -30°C. The closed plastic pads of the Norm 12 shelf provide a lightweight, stable, and hygienic surface. The set includes 4 pads per shelf section.

The Hupfer Norm 12 standing shelf is a lightweight construction made from a combination of aluminium and plastic. The shelf offers a very easy-to-clean, clear, and accessible storage solution for organisation in your logistics.

The modular design allows for a needs-specific configuration for a variety of spatial conditions and temperature environments, thus ensuring maximum space efficiency. Uneven floors and temperatures of -30°C are not a problem even in the long term. The shelf is easy to assemble and can be extended at any time in a straight line or at an angle, easily adapting to changes in logistical operations.

The effortlessly hung, closed plastic surface provides a lightweight, stable, and very easy-to-clean storage area, even dishwasher-safe. Despite its low weight, this surface can hold high loads.

The materials used are sustainable, 100% recyclable, and so valuable that Hupfer guarantees to buy back your entire shelf at the end of its service life.

- solid polymer shelf with low weight ensures safe, hygienic storage and clear
