

Stationary shelving set norm 20 with slatted shelf

Технические характеристики

Max. bay load	150
Max. section load	600
Carbon footprint (TM65 Basic Report)	810 kgCO ₂ e
Масса:	27.865 кг
Ширина:	2650 мм
Глубина:	300 мм
Высота:	1800 мм

Показан пример без декоративных элементов, точность технического описания не гарантируется.

The stationary shelving is designed for storage and to optimise space utilisation. The shelving has a high load capacity and is suitable for use at an ambient temperature of -30°C. The louvred shelf of the shelving norm 20 provides a ventilated, stable and hygienic storage surface.

The Hupfer Norm 20 stationary shelving is a lightweight structure made from anodised aluminium. The shelving offers a clearly arranged and easily accessible storage solution for organised logistics.

The modular design allows for a needs-specific layout for a wide variety of spatial and temperature conditions, thereby ensuring the most efficient use of space. Uneven floors and temperatures from -40°C to +60°C are no problem, even on a permanent basis. The shelving is easy to assemble and can be extended at any time in a straight line or even around corners and is easily adapted to changes in everyday logistics.

The louvred shelf, which can be hooked in effortlessly, provides a ventilated, stable and easy-to-clean storage surface. This shelf holds heavy loads despite its light weight.

The materials used are sustainable, 100% recyclable, and so valuable that Hupfer guarantees that it will buy back all of your shelving at the end of its useful life.

- lightweight aluminium louvred shelf ensures easy handling; ventilated, safe and hygienic storage; and keeps the stored goods in peak condition

Stationary shelving set norm 20 with slatted shelf

- high-quality aluminium workmanship enables easy cleaning and perfect hygiene
- modular system allows for any design and extension and ensures the most efficient use of space
- valuable materials ensure sustainability and value retention
- robust construction guarantees high stability and high load-bearing capacity
- modular system ensures easy handling from assembly to cleaning with little effort
