## Технические характеристики

Показан пример без декоративных элементов, точность технического описания не гарантируется.

<b>Размер ячейки:</b>	300 mm
<b>Max. bay load</b>	250
<b>Max. section load</b>	2000
<b>Carbon footprint (TM65 Basic Report)</b>	649 kgCO <sub>2</sub> e
<b>Масса:</b>	64 кг
<b>Ширина:</b>	2275 мм
<b>Глубина:</b>	610 мм
<b>Высота:</b>	1800 мм

The stationary shelving is designed for storage and to optimise space utilisation. The shelving has a particularly high load capacity and is suitable for continuous use at ambient temperatures ranging from -40°C to +60°C. The wire shelf of the shelving norm 35 provides a well-ventilated, stable and hygienic storage surface. The set contains 4 shelves per shelf section.

The Hupfer Norm 35 stationary shelving offers a clearly arranged storage solution that has been reinforced to offer high load-bearing capacities for organised logistics. The modular design allows for a needs-specific layout for a wide variety of spatial and temperature conditions, thereby ensuring the most efficient use of space. Uneven floors and temperatures from -40°C up to +60°C are no problem, even on a permanent basis. The shelving is easy to assemble and can be extended at any time in a straight line or even around corners and is easily adapted to changes in everyday logistics. Lateral bracing bars increase stability and allow for loading with heavy loads. The wire shelf, which can be hooked in effortlessly, is made from high-quality stainless steel and provides a ventilated, stable and easy-to-clean storage surface while also offering particularly high load-bearing capacities. The materials used are sustainable, 100% recyclable, and so valuable that Hupfer guarantees that it will buy back all of your shelving at the end of its useful life.

- lateral bracing bars also reinforce the shelving and allow for particularly high load-bearing capacities
- wire shelf ensures well-ventilated, safe and hygienic storage and keeps the
