The stationary shelving is designed for storage and to optimise space utilisation. The shelving has a high load capacity and is suitable for continuous use at ambient temperatures ranging from -40°C to +60°C. The louvred shelf of the shelving norm 5 provides a ventilated, stable and hygienic storage surface.

The Hupfer Norm 5 stationary shelving offers a clearly arranged and easily accessible storage solution for organised logistics.

The modular design allows for a needs-specific layout for a wide variety of spatial and temperature conditions, thereby ensuring the most efficient use of space. Uneven floors and temperatures from -40°C up to +60°C are no problem, even on a permanent basis. The shelving is easy to assemble and can be extended at any time in a straight line or even around corners and is easily adapted to changes in everyday logistics.

The louvred shelf, which can be hooked in effortlessly, is made from high-quality stainless steel and provides a ventilated, stable and easy-to-clean storage surface while also offering high load-bearing capacities.

The materials used are sustainable, 100% recyclable, and so valuable that Hupfer guarantees that it will buy back all of your shelving at the end of its useful life.

- louvred shelf ensures ventilated, safe and hygienic storage and keeps the stored goods in peak condition

## Stationary shelving set norm 5 with louvred shelf

Технические характеристики изделия N5BR11006001800 | RS-N5-  
BR/1100×600×1800

- high-quality stainless steel workmanship enables easy cleaning and perfect hygiene
- modular system allows for any design and extension and ensures the most efficient use of space
- valuable materials ensure sustainability and value retention
- robust construction guarantees high stability and high load-bearing capacity
- modular system ensures easy handling from assembly to cleaning with little effort
