

## Stationary shelving set norm 5 with wire shelf

Технические характеристики изделия N5DR22004001800 | RS-N5-DR/2200×400×1800

### Технические характеристики

<b>Max. bay load</b>	150
<b>Max. section load</b>	600
<b>Масса:</b>	43.427 кг
<b>Ширина:</b>	2175 мм
<b>Глубина:</b>	400 мм
<b>Высота:</b>	1800 мм

*Показан пример без декоративных элементов, точность технического описания не гарантируется.*

The stationary shelving is designed for storage and to optimise space utilisation. The shelving has a high load capacity and is suitable for continuous use at ambient temperatures ranging from -40°C to +60°C. The wire shelf of the shelving norm 5 provides a well-ventilated, stable and hygienic storage surface.

The Hupfer Norm 5 stationary shelving offers a clearly arranged and easily accessible storage solution for organised logistics.

The modular design allows for a needs-specific layout for a wide variety of spatial and temperature conditions, thereby ensuring the most efficient use of space. Uneven floors and temperatures from -40°C up to +60°C are no problem, even on a permanent basis. The shelving is easy to assemble and can be extended at any time in a straight line or even around corners and is easily adapted to changes in everyday logistics.

The wire shelf, which can be hooked in effortlessly, is made from high-quality stainless steel and provides a ventilated, stable and easy-to-clean storage surface while also offering high load-bearing capacities.

The materials used are sustainable, 100% recyclable, and so valuable that Hupfer guarantees that it will buy back all of your shelving at the end of its useful life.

- wire shelf ensures well-ventilated, safe and hygienic storage and keeps the stored goods in peak condition
