| | |
|---|-------------------------|
| Размер ячейки: | 150 mm |
| Max. bay load | 150 |
| Max. section load | 600 |
| Carbon footprint (TM65 Basic Report) | 453 kgCO ₂ e |
| Масса: | 46 кг |
| Ширина: | 2275 мм |
| Глубина: | 400 мм |
| Высота: | 2000 мм |

The stationary shelving is designed for storage and to optimise space utilisation. The shelving has a high load capacity and is suitable for continuous use at ambient temperatures ranging from -40°C to +60°C. The solid shelf of the shelving norm 5 provides a stable and hygienic storage surface. The set contains 4 shelves per shelf section.

The Hupfer Norm 5 stationary shelving offers a clearly arranged and easily accessible storage solution for organised logistics.

The modular design allows for a needs-specific layout for a wide variety of spatial and temperature conditions, thereby ensuring the most efficient use of space. Uneven floors and temperatures from -40°C up to +60°C are no problem, even on a permanent basis. The shelving is easy to assemble and can be extended at any time in a straight line or even around corners and is easily adapted to changes in everyday logistics.

The solid shelf, which can be hooked in effortlessly, is made from high-quality stainless steel and provides a stable and easy-to-clean storage surface while also offering high load-bearing capacities.

The materials used are sustainable, 100% recyclable, and so valuable that Hupfer guarantees that it will buy back all of your shelving at the end of its useful life.

- solid shelf ensures safe, hygienic storage and clear access at all times
